Task	Expected and passed	Issues to be fixed with priority for the next released
Signing up for a new (company)-Account - Clicked on the Sign-Up Button - Complete the form - Submitted the form	A welcome page opens	
Changing the name of the team - Click on the menu in the upper right corner - Click on Teams - Click on the edit button, change the name - Click on the save-button	A list with teams appears Upon the first signup, there is one team The team name is changed	
Adding a user - Go to User management - Click on "Add user" - Complete the form - Submittin the form	New user is created, and it appears in the list after submitting	In the teams dropdown appear ALL teams, not only from this company
Going back to planning	Expected is the planning, but the welcome page is still there. Only logging out and in again helps	Issue with changing the team name
Selecting a day	- Day zooms open - Buttons for adding and copying become active	
Adding a day - Clicking on the Plus sign opens a popup - I can enter the time, category and user	The event is saved	It's possible to make overlapping events. This has to be prevented because it can produce too many hours on the summary pages
Copying a day - Selecting a day, clicking the 'copy'-icon - A quick help pops up with two new symbols - I can select the days I want to copy to - I can confirm the copy	Events are copied.	

Navigation
- Using navigation arrows

Month moves forward and back
Year shows when crossing a year

- Home Icon

Brings me to the current month

Changin the day start- and end time
in the Global settings

The view adjusts and the time range changes

View the Summary when clicking on a name

Summary appears and hours are accounted for

Selecting a different team

Team selector works. No selector
Appears when the company has only 1 team

Settings: Adding a team

Adding a team works

Settings: Deleting a team

Correctly only possible if there's no user
attached to that team

Settings: Adding a team

Teams can be added

Add/edit/delete a user

Adding and editing a user works

Settings: Global
- I can make changes to the company settings
- I can change the signup plan

Editing the form works
Plans and Amounts are showing

Loggin in as an Agent

Menu changes – less settings

Favicon only works in development environment, not in production

Deleting is not implemented yet

Stripe does not work yet
